

SCAN-PRO

SCAN & SCOPE

The SCAN-PRO is the most popular hand held diagnostic scan and scope tool in Australia. It has the broadest vehicle coverage in today's market. Its powerful features include a 4 Channel Labscope, Ignition analyzer, Multimeter and built in help screens. The SCAN-PRO is 'CAN' ready for the latest ECU technology and has an extensive Key Coding functions. It offers Internet upgrades, an Australian upgrade and is also backed up by local technical support. With its USB interface you can print, activate sensor controls and view live data and waveforms. You can also activate the vehicle from your PC using its Host-Pro Software.

3 Year Warranty - Hand Piece
1 Year Warranty - Cables

Scantool

- * Self diagnosis
- * Trouble Codes - Read, Clear, History
- * Data stream
- * Circuit Diagram & Repair Guide (Korean vehicles)
- * Actuation Test
- * Graphs the data (line/dot)
- * OBD1/11-EOBD
- * Flight Record (Blackbox)

Multimeter

- * Voltage: DC 30V Max
- * Frequency: 1 Hz - 100KHz
- * Duty Cycle: 0 - 99.9%

Ignition Analyzer

- * Primary & Secondary Ignition
- * Conventional and Distributorless DLI/DIS
- * Time, Peak Voltage, Dwell Angle, Current

Ampere

- * Voltage & RPM Indication
- * Up to 8 cylinder bar graph
- * Multiple cylinder parallel pattern
- * Secondary ignition raster parade

Simulation

- * Reads, displays data and checks the reaction of the overall Electronic Control System
- PC Printer Direct Interface
- * Simply and precisely print by direct interface with any PC printer. (USB cable is an optional extra)

4 Channel Oscilloscope

- * Time Division: 25us - 20 sec
- * Sampling Rate: 500KHz per 2 channel
- * Voltage Division: 0.1V - 20V
- * Voltage: DC 150V Max
- * Auto Setup
- * Zoom up to x 5
- * Flight Record
- Current clamp: 600 Amp
- Host-Pro realtime PC interface, record & playback

Multi-CAN Ultraplexer

Technical Specifications

- * Dimensions: L292mm x W172mm x T64.2mm
- * Weight: 1.5kg (hand piece)
- * CPU: Dual 16 bit 33Mhz Processor
- * Memory: 1 MB SRAM

Card 128 MB

- * LCD Display: 320 x 240 Graphic LCD with backlight
- Printer: General PC Printer
- * Power: Vehicle Battery, Cigarette Lighter or AC/DC (not included)

Upgrade through the Internet

- * DOS, Windows version available
- * PC interface enables SCAN-PRO to bring its software up to date.

- * Updates software available at website

www.autoequipment.com.au

Options

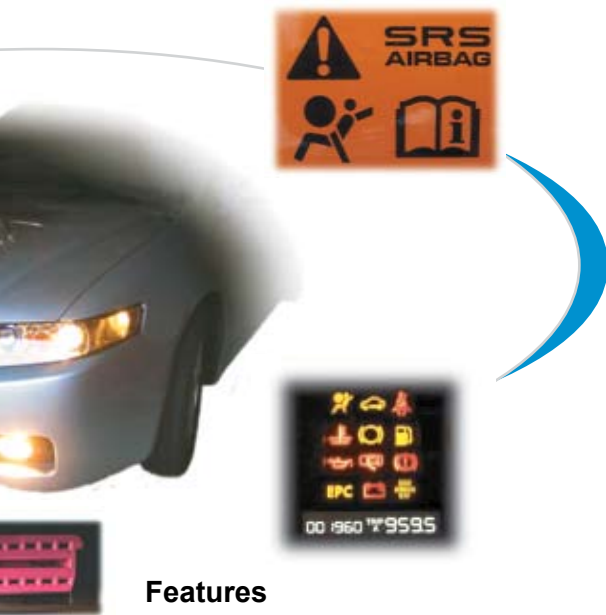

- Current clamp: 128 Amp
- Current clamp: 600 Amp

GLOBAL-SCAN

The Global-Scan is a high tech solution for workshop diagnostics. This quality compact scan tool boasts the latests technology and is configured for the worldwide 'CAN' protocol implementation. Global-Scan features multi range control system coverage. ABS, SRS, ETS, Climate control, ECM, PCM, Immobiliser, Instrument Cluster and much much more. It supports extended functions such as key coding, activation, reset basic settings, adaptation, repair guide etc.

SCAN

Technical Specifications

Dimensions: L 221mm x W182.5mm x D50mm
 Weight: 950g (base unit only)
 Memory: 128MB Flash memory card
 LCD: 320 x 240 backlit
 Languages: English, Spanish, Korean
 Power: 12V DC from Vehicle battery, Cigarette lighter or DC power supply.

Australian, Japanese, Korean, European

Features

Global-Scan provides realtime PC interface and Windows based click-and-go software update through USB, available on the Internet. The Global-Scan is designed to interface with gas analysers for real time driving tests.

- * Ergonomic high tech design with a super tough over mold construction.
- * 128mb memory card
- * Covers Australian, Japanese, Korean & European
- * Extra large backlit super clear LCD display.
- * 'CAN' & J1850 onboard
- * Easy software updates through the Internet.
- * Data stream graphical display options for easy viewing.
- * "Blackbox" record functions, save and replay events as they happen.
- * Actuator tests, prove the inputs and outputs and check continuity of circuits.
- * Realtime PC interface through USB
- * Help menu
